To Whom It May Concern:

Re: Rickey Henderson

We have fully inspected this 1985 New York Yankees home knit pinstripe jersey of future Hall of Famer Rickey Henderson, at our customer's request. In the neck of the jersey is a white patch reading "Henderson 85 3" which has been done in black chain stitch. The numbers denote the year and set number, respectively. On the left front tail is the "Wilson" label with the size "42." On the left breast is the "NY" logo and on the back is the player number "24." Both the logo and number are made of blue tackle twill. On the left sleeve is a black armband which commemorates the death of Pete Sheehy. There are some stains on the front and back of the shirt as well as some fraying on the logo and number. The shirt shows even and consistent use throughout.

We were told by our client that the jersey came from an impeccable source. It shows good game-use and appears to have no alterations of any kind. In our opinion, this is an authentic New York Yankees game-used home knit pinstripe jersey worn by future Hall of Famer Rickey Henderson during the 1985 season.
